

GoOil Canada

From local franchise owners to the products they use in our vans – Go Oil is your Canadian oil change provider. John Sparrow, founder and CEO of Go Oil, is backed by an entrepreneurial spirit, grit, and a fundamental understanding of what Canadians are looking for. John has led the Go Oil team through rapid growth and expansion into a national business servicing cities across Canada, and he continues to lead with a vision of what the future of oil changes will be. The company uses a proprietary oil extraction system that extracts most of the oil out of the dipstick, meaning a much lower risk of spillage on your property. They've also created a booking system that can provide an exact quote based on vehicle year, model and engine size.
